

Workshop Outline

ALTARS & SPIRITS FOR BEGINNERS

WHAT IS IT ABOUT?

The importance of 'sacred space' and deep resonance with deity have been linked to humanity since prehistory. In modern times, when many of us have moved away from exoteric religion towards solitary practices of spirituality, the need to explore and understand sacred spaces and personal deities is an undeniable pull. This workshop allows chance to do both.

WHO WILL LOVE IT?

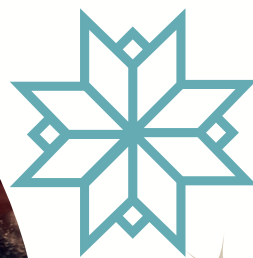

Anyone who is interested in learning about setting up a sacred space of their own, and exploring deities across history and cultures to see what resonates personally. There will be lots of opportunity to share ideas, experiences and questions.

WHAT WILL I GET OUT OF THIS SESSION?

During this session you will explore the need for sacred space and our relationship with spirit. We will also explore spiritual and magical practices associated with sacred spaces. After attending the session you will:

- Have a greater understanding of sacred altar space and spirits.
- Have the confidence and knowledge to set up a practical sacred space of your own, and establish relationships with deities which resonate with you personally.
- Be filled with the peace and tranquility your sacred space brings to your personal practice.
