

Workshop Outline

RUNE DIVINATION

WHAT IS IT ABOUT?

Runes are a simple yet powerful way to connect with spirit and our own intuition, to give us 'themes' for our day to day life, or more complex insights into life events and situations. The Vikings thought of Runes not merely as letters but as having potent virtues within themselves of a metaphysical or even magical nature. This workshop allows chance to explore these virtues.

WHO WILL LOVE IT?

Anyone who is relatively new to divination, or to the use of Runes for divination. Please note that as with any divination practice, there is no prerequisite for psychism or mediumship 'gifts'. We all have the inherent ability to connect with the divine, all of us are 'gifted'.

WHAT WILL I GET OUT OF THIS SESSION?

During this session you will explore the meanings and virtues of the Viking/Celtic Runes and simple Rune divination techniques. After attending the session you will:

- Have a greater understanding of Runes and their meanings.
- Have the confidence and knowledge to use Runes to gain insight and intuitive guidance for your own life and the lives of others.
- Be filled with respect for the ancient alphabet of the Runes and how you can use their wisdom to enrich your life.
